

Jalema Blueprint Filing Systems

The smart way to file!

Go vertical and triple your capacity

JALEMA 
INFORMATION MANAGEMENT

By utilizing vertical space, Jalema allows you file most jobs 2-high which can triple your capacity when compared to flat file cabinets!

Floor racks, wall racks, mobile carts for efficiently handling and storing documents. High-density floor racks, wall racks and mobile carts allow you to manage and protect active and archived jobs efficiently. Custom cut bars with special adapters allow you to retrofit bars into existing cabinets, 4-post shelving and other structures. Color coded tabs and index flags allow you to find jobs quickly and easily.

Prod. Nr.	Description
MR63	Metro Rack single tier (36"Wx30"Dx63"H). Fits up to 36"x48" material in 1-level. *Other sizes available.

Jalema introduces the latest addition to its hanging file system product line which addresses blueprint, drawings, plans and map storage issues. Jalema uses the unique single point suspension (hook-and-bar) system to allow architects, engineers and designers to efficiently manage and store job material. Files are "locked" into place and hang uniformly to create an organized and attractive looking filing system.

Hanging clamps, adhesive strips, Staple Strips and files for managing blueprints

Hanging Clamps

Hanging Clamps hold up to 25 loose sheets or 50 staples sheets and come in 18"(2 clasps), 24"(3 clasps) and 36"(4 clasps) sizes.

More from Jalema

OFFICE FILING

Efficiency & ease in document storage and retrieval.

DIGITAL MEDIA FILING

Functional, innovative storage for CD's, Zips, Jaz & floppies

Expanso

Jalema Expanso lets you use your current filing space 75% more efficiently and without structural or architectural changes, or time-consuming moves. Jalema Expanso consists of a set of tracks and a carriage. The tracks are mounted on the floor in front of and parallel to your Uni-racks or Offset-racks. The tracks can also be joined for continuous lengths.

Please note: stacked Offset-racks cannot be placed on the Expanso system.

Jalema Expanso for Grafi-System filing comes as a do-it-yourself kit. Easy-to-follow assembly instructions are included in the packaging.

Prod. Nr.	Description
6721000	set of 2 tracks for one carriage; 82 11/16"
6731250	set of 2 tracks for two carriages; 123"
6741500	set of 2 tracks for three carriages; 163 3/8"
6704700	carriage for Uni-rack 15"
6706500	carriage for Uni-rack 21 5/8"
6708400	carriage for Offset-rack (base only)

Jalema: space and timesaving filing solutions for more than 55 years

Established as a family business in 1947, Jalema has grown into one of Europe's largest manufacturers of professional filing systems. The head office of this dynamic enterprise is located in Reuver, the Netherlands. Jalema also has subsidiaries in Belgium, France and the United States.

Jalema's time, space and money-saving filing solutions are based on files with a unique one-point suspension system, making lateral filing possible. In other words, the files hang diagonally on a profile-bar and therefore require an absolute minimum of space. A wide range of accessories makes it possible to work more quickly and efficiently than ever before.

Because of the quality of our innovative, integrated filing systems, Jalema has managed to secure a position as market leader in various countries and industries (including the graphic arts industry and healthcare sector).

Quality (Jalema is ISO-9001 certified), service and continuity form the cornerstones of the long-standing relationships Jalema maintains with its buyers across the world.
